**DRNSIGHTS INVESTIGATIONS**

FIGHT FRAUD AND AVOID COSTLY, IMPROPER PAYMENTS

DRNsights Investigations, a part of our DRNsights for Insurance platform, is fueled by vehicle location data and analytics, designed to complement and enhance your policy creation and claims investigation processes. With over 15 billion vehicle location data points in over 300 markets, we help you prevent premium loss and overpayment by better identifying material misrepresentation and fraud.

300 MAJOR MARKETS
250 MILLION SIGHTINGS PER MONTH

DRNsights Investigations platform features:

- Cloud-based platform to ensure secure, 24-7/365 access
- Intuitive and user-friendly interface including single sign-on
- Customizable reporting and data export options
- Standards-based APIs for system of record integration

15 BILLION and growing
vehicle sightings across the nation

AN EVEN MORE POWERFUL PLATFORM FOR INSURANCE

DRN's *real*ternative data platform uniquely combines billions of license plate recognition records with powerful, patented analytics to build full vehicle stories. DRNsights Investigations adds powerful functionality developed with insurers in mind to help in underwriting and investigations.

DRNSIGHTS INVESTIGATIONS

Vehicle Sighting Search
Map all sightings of a vehicle on conventional and satellite maps. See all vehicle location data for any date or range.
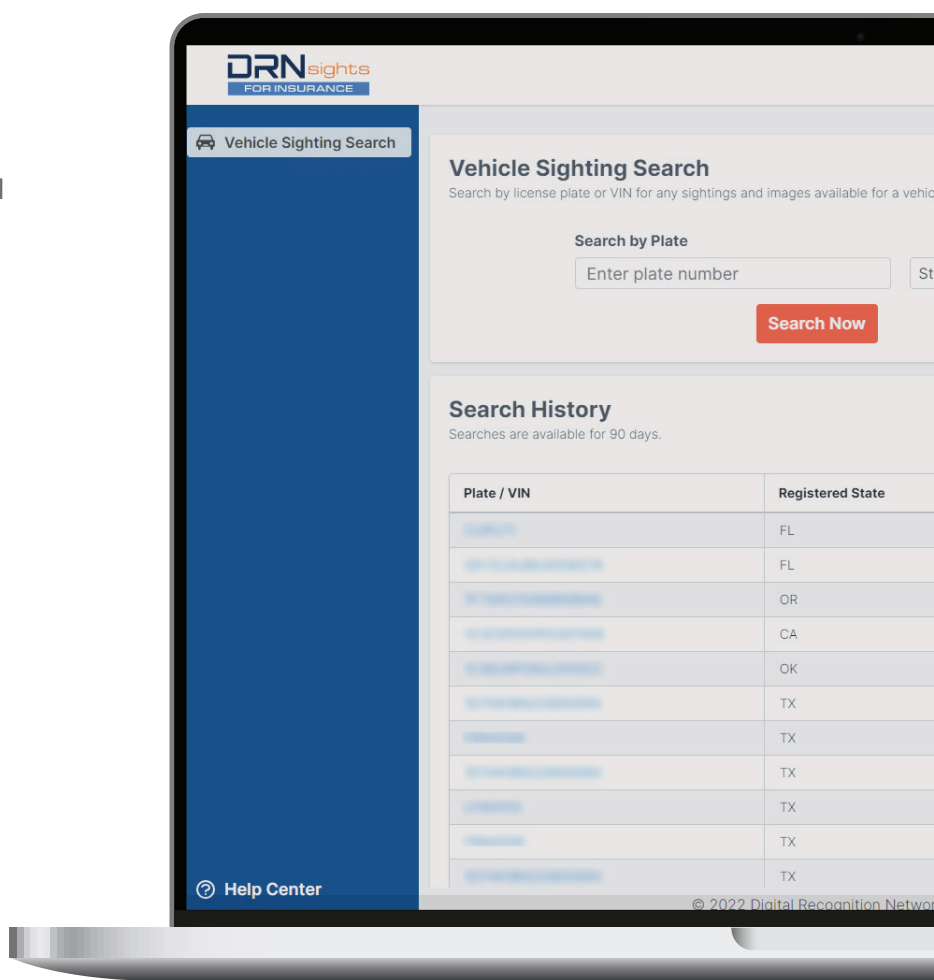

Address Analysis (coming soon)
Review and analyze vehicle sightings near a given address or by drawing circles, squares or free-form shapes on a map.

Picture Search (coming soon)
See all vehicle photos for focused analysis of its condition over time, to provide evidence of location and pre-existing damage.

Link Explorer (coming soon)
Search by address and compare vehicle sightings common to multiple locations to investigate individual or collusive fraud.

Real data, real analytics, real results.
