

ACCELERATE

PORTFOLIO PERFORMANCE

We already know where your asset is located*

HERE'S HOW

Home of The Intelligent Data Network™ MVTRAC is the leading innovator of license plate recognition (LPR) enabled data solutions.

On a national scale, MVTRAC aggregates intelligent data containing the following information:

**License Plate
Image**

Vehicle image(s)

**Date and Time
Stamp**

**Vehicle
Geolocation**

With access to over 20 billion data points (and counting) plus the largest agent network in the nation, MVTRAC provides instant returns on your portfolio through referencing actionable data on accounts of all classifications; from fresh pre charge-off accounts to finely aged, elusive, charge-off assets that are difficult to locate.

Leveraging real-time data collection with our massive historical database and professional agent network affords our clients with a complete, aggressive, and automated approach towards the location and recovery of valuable assets.
