FIND ASSIGNMENTS FASTER, EXPAND YOUR BUSINESS AND GENERATE MORE REVENUE

Immediate access to our industry leading database and LPR hotlist expands your business and generates new revenue with powerful analytics to find assignments faster.

Locate Assignments Faster.

Join our network of agents successfully using LPR to automate and expedite the repossession process, reducing days to recovery by up to 50%.

Grow Your Business.

Enhance direct assignments with access to both lender and provider hot lists that average over 500,000 assignments for you to collect.

Generate More Revenue.

Earn money by scanning license plates as you're searching for assigned vehicles. This expands our historical detection database to increase the power of our technology.

HOW IT WORKS

01

Become a DRN Affiliate by contacting your Affiliate manager: DRN Affiliates rank among the most successful repo agents in the nation with increased recoveries, profit sharing and a book of assignments that continues to grow at a rate unmatched in the industry.

02

Buy LPR Cameras: Purchase and install your cameras, then begin importing your hotlist of direct assignments from your clients. You'll have immediate access to 12 months of DRN's historical data that can aid in locating assets.

Add a Provider and Gain Access to New Business: Dramatically increase your assignments and recoveries by contracting with one of DRN's approved Providers, also known as Forwarders. You'll get instant access to all the Provider's hotlists coming from multiple lenders - this includes an average of 500,000+ open assignments per month.

03

Scan for LPR: DRN Affiliates serve the top lenders and providers in the nation. Lenders upload their hotlists, then you start driving. As you drive, the cameras will actively scan and perform license plate searches, while adding to our historical scan database. If you scan a car on your hotlist, you'll receive an alert.
